About the Organization

Matri Seva Samiti is a registered not-for-profit organization established in the year 2021-2022 under the Society Registration Act with registration number ALL/06316/2021-2022. Headquartered in Jhunsi, Prayagraj, Uttar Pradesh, the organization is dedicated to empowering marginalized communities, especially women, children, and the underprivileged, through holistic development initiatives.

Since its inception, Matri Seva Samiti has worked at the grassroots level to address some of the most pressing issues faced by vulnerable populations, such as lack of access to education, poor healthcare, unemployment, gender inequality, and environmental degradation. The organization operates with a belief that true development is inclusive, participatory, and sustainable—and that lasting change comes from within communities themselves.

Driven by a strong sense of compassion, social responsibility, and a mission to uplift lives, Matri Seva Samiti is creating tangible impacts through targeted interventions across education, health, women's empowerment, livelihood, and environmental conservation.

A just, inclusive, and empowered society where every individual—especially women, children, and the underprivileged—has access to education, health, dignity, and sustainable livelihood opportunities.

To uplift marginalized communities by delivering holistic development programs in health, education, livelihood, and women empowerment, while fostering environmental sustainability and active community participation.

What Makes Us Stand Out

SDG Alignment With SDGs

Matri Seva Samiti empowers underprivileged communities through livelihood support and self-help group formation to break the cycle of poverty.

We promote community health through maternal care, adolescent health education, and awareness on nutrition and sanitation.

Our early childhood education centres and remedial programs ensure equitable learning opportunities for children from marginalized backgrounds.

We advance women's rights through leadership training, gender sensitization, and economic empowerment programs.

We collaborate with government bodies, civil society, and development partners to scale sustainable impact across sectors.

Sustainability Measures in Matri Seva Samiti's Approach

Community Ownership & Participation:

We place the community at the heart of our programs. Through participatory rural appraisal, needs assessments, and inclusion of local voices in planning and decision-making, we foster a sense of responsibility and collective ownership among beneficiaries. Women, adolescents, and community leaders are encouraged to co-lead activities, strengthening their roles as agents of change.

Capacity Building of Local Stakeholders

We invest in the capacity enhancement of frontline workers, peer educators, SHG members, school teachers, and adolescent leaders. By building their knowledge and leadership, we create a cadre of trained individuals who can continue the mission independently.

Integrated & Multi-thematic Approach

By addressing interconnected issues—such as health, education, gender, and livelihood—through a single platform, we reduce redundancy and maximize impact. This integration ensures that development gains in one area reinforce progress in others.

Monitoring, Learning, and Adaptation

A robust MEL (Monitoring, Evaluation, and Learning) system helps us track outcomes, adapt interventions, and document best practices. These insights are shared with stakeholders to inform replication, scaling, and policy-level advocacy.

Pilot Implementation

Community Mobilization & Baseline Assessment

Capacity Building of Local Stakeholders

Program Customization to Local Context

Implementation & Participatory Monitoring

Formation of Community-Based Structures

Strengthening Linkages with Local Systems

Gradual Transition to Community Ownership

Scale-Up through Partnerships & Policy Integration

Strengthening Linkages with Local Systems

Health System Integration

- Supported maternal and child health initiatives by working with ASHA and ANM workers.
- Enabled access to government schemes such as Janani Suraksha Yojana.

Strengthening Education Ecosystem

 Collaborated with local schools and education officers to run bridge courses, remedial classes, and school readiness programs for out-of-school children.

Supporting Anganwadi Centres

 Enhanced the quality of early childhood education and nutrition services by training Anganwadi Workers (AWWs).

Strengthening Local Governance & Women's Institutions

 Enabled the formation and nurturing of Self-Help Groups (SHGs) and their integration into federations and producer groups.
